U.S.N

## P.E.S. College of Engineering, Mandya - 571 401

(An Autonomous Institution affiliated to VTU, Belgaum)

## Fifth Semester, B.E. - Mechanical Engineering Semester End Examination; Dec. - 2015 Manufacturing Process - III

Time: 3 hrs Max. Marks: 100

Note: Answer FIVE full questions, selecting ONE full question from each unit.

UNIT - I

1 a. With a neat sketch explain the classification of metal working process on the basis of force

1 a.	With a neat sketch explain the classification of metal working process on the basis of force	10	
	applied.	10	
b.	Explain the effect of the following on metal working process:		
	i) Temperature	10	
	ii) Hydrostatic pressure		
2 a.	Compare Tresca and Von miscs yield criteria.	10	
b.	Distinguish between wrought products and cast products.	10	
	UNIT - II		
3 a.	Discuss with relevant sketches the various forging design parameters.	10	
b.	With neat sketches explain the defects in rolled products.	10	
4 a.	. Describe the effect of front and back tension on rolling load.		
b.	Explain planetary rolling mill with a neat sketch.	7	
c.	Write a note on flow lines in forging.	6	
	UNIT - III		
5 a.	Explain with neat sketch impact extrusion process.	8	
b.	What are the variables associated with extrusion process? Explain any three of them.	12	
6 a.	. Write a note on estimation of redundant work in drawing.		
b.	b. Explain optimal cone angle and dead zone formation in drawing.		
c.	List any four defects in extrusion process.	4	
	UNIT - IV		
7 a.	Sketch and explain:	10	
	i) Progressive die ii) Rubber forming	10	
b.	What is limiting drawing ratio? Explain any four defects in deep drawing process.	10	
8 a.	. Explain any two punch and die design parameters in deep drawing.		
b.	Sketch and explain:	10	
	i) Compound die ii) Stretch forming	10	
c.	Write a note on forming limit criterion.	6

## UNIT - V

9 a.	Explain briefly, the basic steps of powder metallurgy with a flow chart.	10
b.	Mention by five applications of powder metallurgy.	5
c.	Explain types of plastics.	5
10 a.	Sketch and explain any two methods of powder production.	10
b.	List the advantages and disadvantages of powder metallurgy.	5
c.	Explain health and safety issues for plastics and ceramics manufacturing environment.	5
