b.						10		
	i) Warrants ii) Convertibles.							
c	•••• • • • • • •		OR					
8 a.								
b.	b. Discuss EVA. Explain its three components.					10		

PART - B (Compulsory)

9. Case Study:

From the following data the sales forecast of Sahi for the first 5 month of the coming year are,

January	40,000
February	45,000
March	55,000
April	60,000
May 5	50,000

20

Other data is as follows :

Debtor and Creditors balance at the beginning of the year is `30,000 and `14,000 respectively.

The balance of other assets are Cash ` 7500, Stock ` 51,000 Accrued. Sales commission

3,500.

40% of the sales are in cash and remaining 60% is credit which is collected in the month following the sales.

Cost of Sales is 60% of sales

Only other variable cost is commission at 5% to salesman which is paid in the month after it is earned.

Inventory is kept equal to sales requirement for the next 2 months budgeted sales.

Trade creditors are paid in the month after purchased, Fixed cost is `5,000 per month which includes 2,000 depreciation.

Prepare a cash budget for first 3 months of coming year.
