| P.E.S. College of Engineering, Mandya - 571 401<br>(An Autonomous Institution affiliated to VTU, Belagavi) |   |    |  |  |  |  |  |  |  |
|  |   |    |  |  |  |  |  |  | Eighth Semester, B.E Civil Engineering |
| Semester End Examination; July - 2021  |   |    |  |  |  |  |  |  |  |
| T  | Urban Transport Planning   Time: 3 hrs Max. Marks: 100  |    |  |  |  |  |  |  |  |
|  |   |    |  |  |  |  |  |  |  |
| 1 a.   | <ul><li><i>Note:</i> Answer any <i>FIVE</i> full questions.</li><li>a. Define transportation planning. Explain the "interdependence of land use and traffic".</li></ul> |    |  |  |  |  |  |  |  |
|  |   |    |  |  |  |  |  |  |  |
| b.   |   |    |  |  |  |  |  |  |  |
| 2 a.   | With a flowchart, discuss the urban transport system planning process.  | 10 |  |  |  |  |  |  |  |
| b.   | With a neat figure, explain the basic components of transportation system with their  | 10 |  |  |  |  |  |  |  |
|  | relationship.   |    |  |  |  |  |  |  |  |
| 3 a.   | Enumerate and explain the types of inventories of transportation facilities.  |    |  |  |  |  |  |  |  |
| b.   | Enumerate the factors influencing the trip generation and explain the zonal regression  | 10 |  |  |  |  |  |  |  |
|  | technique for trip generation analysis.   | 10 |  |  |  |  |  |  |  |
| 4 a.   |   |    |  |  |  |  |  |  |  |
| b.   | Describe the concept of study area, zoning and explain the factors affecting zoning.  | 10 |  |  |  |  |  |  |  |
| 5 a.   | Explain the synthetic model based on Newton's concept of gravity.   | 10 |  |  |  |  |  |  |  |
| b.   |   | 10 |  |  |  |  |  |  |  |
|  |   |    |  |  |  |  |  |  |  |
| 6 a.   | I C   |    |  |  |  |  |  |  |  |
| b. The distribution of present trips among zone 1 to 3 are given in the O.D matrix below,                  |   |    |  |  |  |  |  |  |  |
|  | O $D$ 1 2 3   |    |  |  |  |  |  |  |  |

| 0 | 1   | 2   | 3   |
|---|-----|-----|-----|
| 1 | 60  | 100 | 200 |
| 2 | 100 | 20  | 300 |
| 3 | 200 | 300 | 20  |

The future trips generated in zone 1, 2, 3 are expected to be 360, 1260, and 3120 respectively. Distribute the future trips.

| 7 a.  | Define modal split and explain the factors affecting modal split.                  |    |  |  |  |  |  |
|-------|--|----|--|--|--|--|--|
| b.    | Explain the recent developments in modal split analysis.                           |    |  |  |  |  |  |
| 8 a.  | Enumerate the methods of route assignment. Explain any two methods.                |    |  |  |  |  |  |
| b.    | Explain traffic assignment. Explain the application of traffic assignment.         |    |  |  |  |  |  |
| 9 a.  | Explain the difficulties in transport planning for small and medium cities.        |    |  |  |  |  |  |
| b.    | Discuss the various computer applications in transportation planning.              |    |  |  |  |  |  |
| 10 a. | 0 a. Write a short note on;  |    |  |  |  |  |  |
|       | i) Metro Rail ii) Intermediate Public Transport in Indian cities                   | 10 |  |  |  |  |  |
| b.    | What are the factors that govern the planning process for small and medium cities? | 10 |  |  |  |  |  |
|       | * * * *  |    |  |  |  |  |  |
